Mary Anne Cannon
Vice President West Palm Beach Site and
Development Operations

Mary Anne Cannon is Pratt & Whitney's vice president West Palm Beach, Florida Site and Development Operations. Mary Anne is responsible for oversight and leadership of the West Palm Beach campus, inclusive of anticipated growth and leads the Development Operations organization across all Pratt & Whitney sites, encompassing Engine Assembly, Instrumentation & Test Operations. She is responsible for meeting Engine Assembly, Instrumentation & Test-related customer requirements in the areas of cost, quality, schedule, and delivery, as well as developing organizational talent. Prior to this role Mary Anne was vice president Operational Commercial Programs and was responsible for developing and managing the product line life-cycle strategies and ensuring customer requirements were met for multiple engine product lines.

Ms. Cannon has 30 years of experience at Pratt & Whitney across Engineering, Quality, Operations and Program organizations. She served on Pratt & Whitney's executive committee as vice president of Quality and Environment, Health and Safety (EH&S). She was responsible for the continued development and administration of Pratt & Whitney's Quality and EH&S policies and practices worldwide as well as ensuring compliance with corporate, federal, and state requirements, product integrity and quality assurance and Achieving Competitive Excellence (ACE) continuous improvement activities. Prior to joining Pratt & Whitney in 1989 at the West Palm Beach location, Cannon started her career at Grumman Aerospace Corp. She earned a bachelor's degree in mechanical engineering from Stevens Institute of Technology in 1986.

Mary Anne is passionate about supporting women in STEM (Science, Technology, Engineering and Math) roles. She devotes her time to mentoring young women both in college and at P&W and established a scholarship at her alma mater Stevens Institute of Technology to support women pursuing an engineering degree. Mary Anne serves on the Board of Trustees for Stevens Institute of Technology. She is currently a member of Virginia Techs' Mechanical Engineering Advisory Board. She has served on the Industry Advisory Board for Western New England School of Engineering and the Foundation Board of Central Connecticut State University and Presidents Leadership Council for Stevens Institute of Technology.

Mary Anne is a lifetime member of AWAM (Association of Women in Aviation Maintenance) and a 20-year member of Women in Aviation, International.

When not at work she can be found at the gym pursuing her newest hobby- powerlifting- most recently she competed in her first amateur competition and placed first in her category.

Mary Anne makes her home in Stuart, Florida with her husband Dan- who recently retired from P&W after a 35-year career and her son Joseph who recently graduated with an AS in Criminal Justice and is pursuing his BS in Homeland Security.
