

GlobalConnect B2B

Increase & Expand your business to Asia Pacific

*Use a new B2B
eMarketplace cost free
until 30th June 2022*

GlobalConnect B2B eMarketplace

Enterprise Florida Asia-Pacific is partnering with Singapore Business Federation to introduce Florida companies to GlobalConnect B2B, a business-to-business (B2B) e-marketplace. With over 2000 participating companies, this unique platform is both a marketplace and transactional portal for buyers and sellers to trade their products and services in Asia-Pacific. Key industry sectors include F&B services and manufacturing, digital/ICT, environment, engineering, logistics, manufacturing (non-food), general services and more. Through this platform, Florida companies will be able to showcase their products and connect to new buyers and suppliers in South East Asia. This will help them expand their business to some of the most dynamic and fastest growing markets in the world.

As part of this exclusive partnership, Enterprise Florida is reaching out to interested and qualified Florida companies to join GlobalConnect B2B. They will enjoy all the benefits of the platform free of charge until **30th June 2022**. If you are interested in discussing this opportunity and learn more about how to participate, please contact John Diep, Director, International Trade & Development, Enterprise Florida - jdiep@enterprise florida.com or 561.504.3943 (mobile).
