## Core PCE inflation rises at slowest rate since spring 2021

Source: MarketWatch

The rate of U.S. inflation based on the Fed's preferred PCE gauge rose a mild 0.2% in December and **pointed to smaller price increases in 2024.**

Inflation picked up a bit at year-end after declining in November, but **there's little evidence of emerging trouble.**

The yearly core inflation rate slowed to 2.9% from 3.2% to mark **the lowest level in almost three years.**

Source: Colliers, January 2024

# U.S. Capital Markets

For many investors, 2023 was a year of challenges, with volatile interest rates, a banking crisis, geopolitical conflict, and lenders extending and modifying loans. Although sales volume reached \$344 billion, it dropped by 53% compared to 2022, marking the second consecutive year of declining sales. Activity was the weakest since 2013, and the typical year-end volume pop failed to materialize. The Fed's plan to pivot in 2024 and lower interest rates was a welcome year-end gift to the market and boosted investor sentiment.

- Sales volume of \$344 billion was down 53% from last year.
- Sales haven't been this low since 2013, both annually and quarterly.
- Activity in Q4 was the weakest of the year, which is atypical. However, December did post monthly gains.
- Multifamily volume fell the most of all asset classes, though it led in total sales.
- The Fed's 2024 pivot should set the stage for a better year overall.

## Q4 2023 Sales Volume (by Asset Class)

U.S.			
	Volume (\$ billions)	Volume Change (YOY)	Price Change (YOY)
Office	14.5	-32%	-16%
Industrial	20.8	-43%	+1%
Multifamily	26.9	-50%	-8%
Retail	12.4	-31%	-6%
Hospitality	7.3	-42%	1%
<b>Total</b>	<b>81.8</b>	<b>-42%</b>	<b>-6%</b>

Sources: Colliers, MSCI

# Current Insurance Market – Hard Market Challenges

## Rate/Premium increases

- 2022/2023 Average +/- 30%
- Currently seeing 40-50% (Post Ian)

## Restrictions of coverage

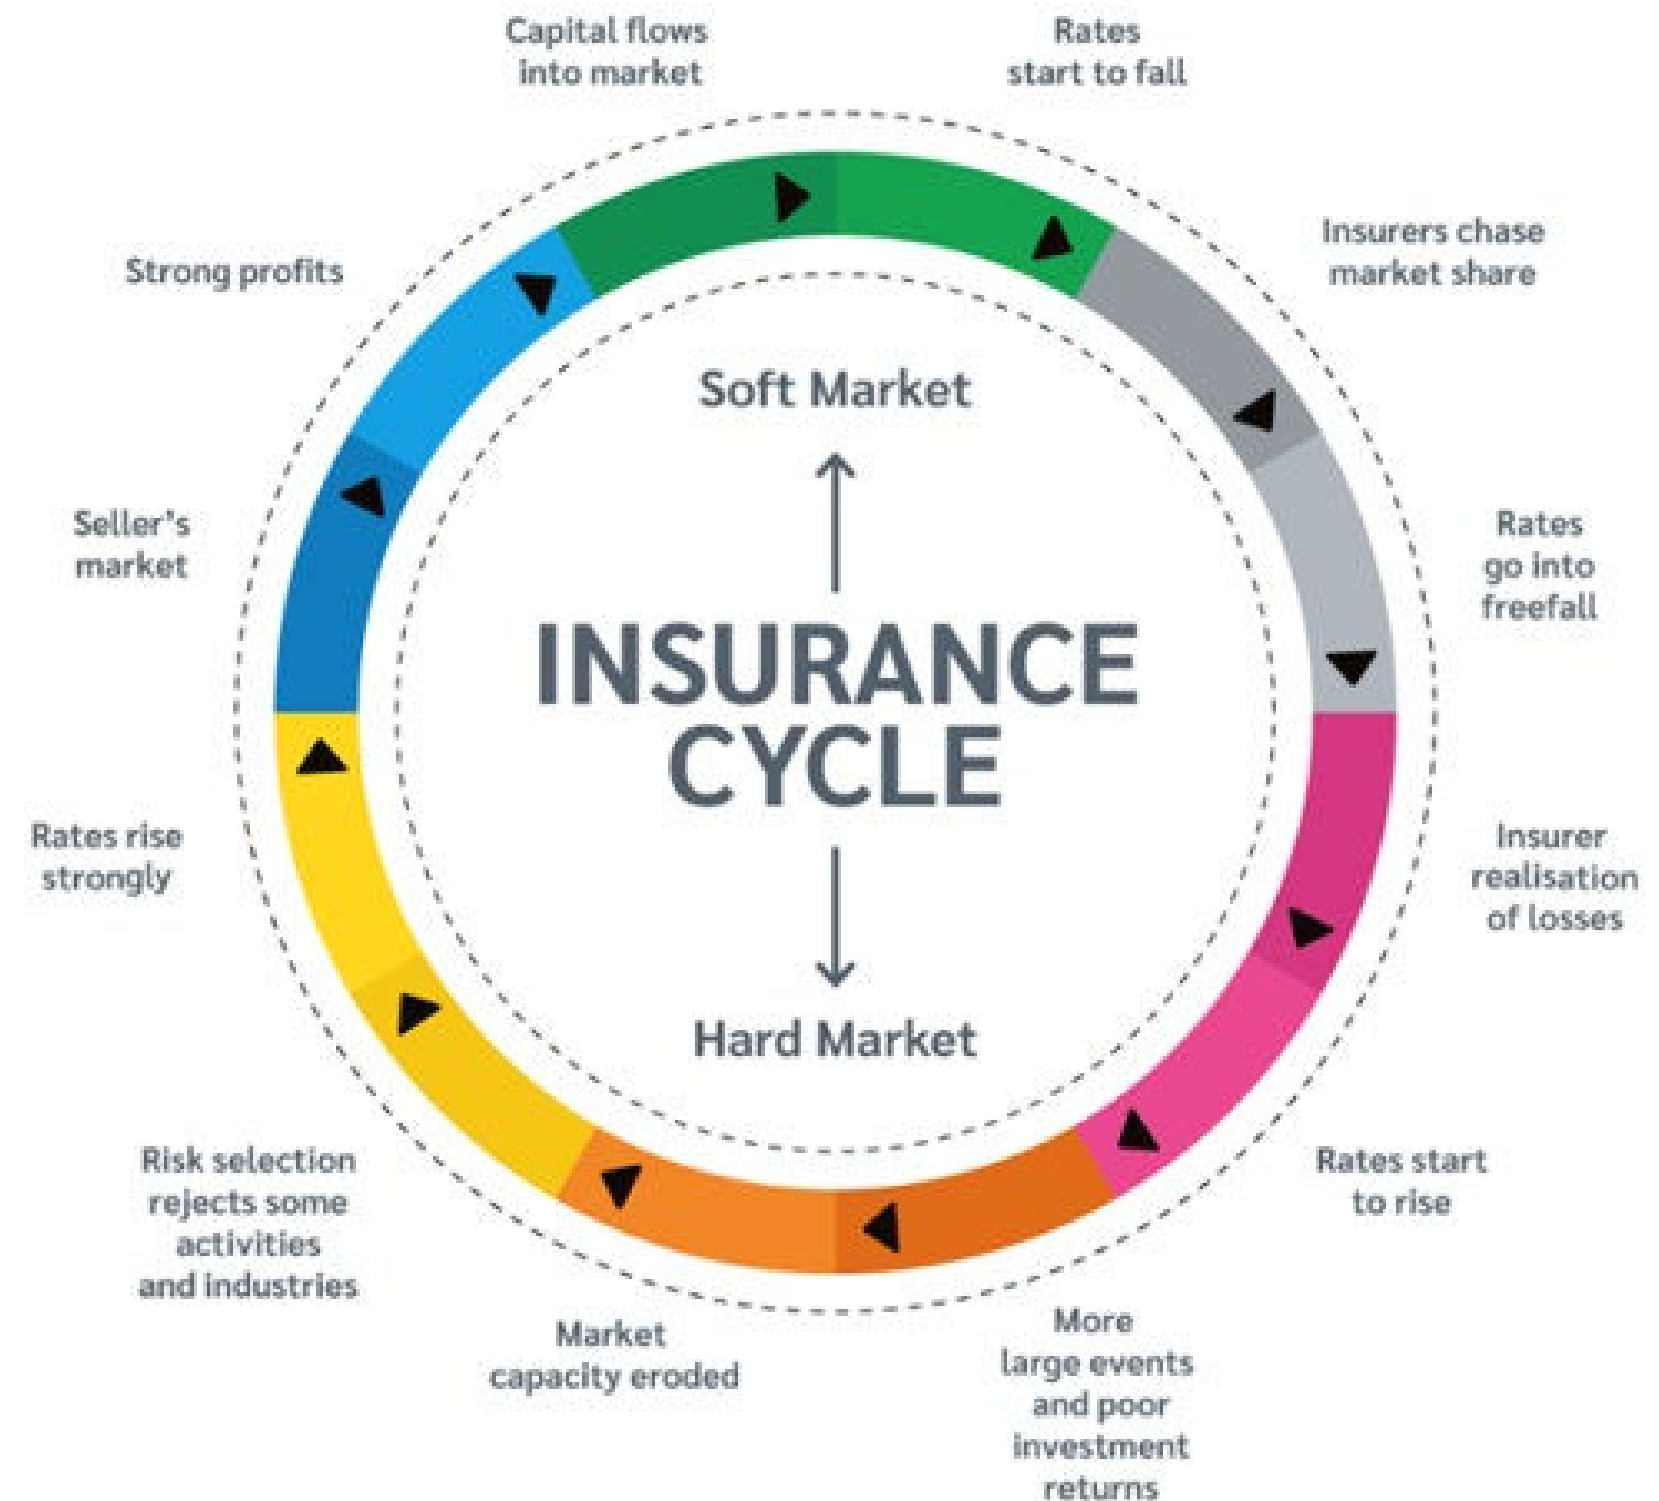

- Higher deductibles – wind 5%, 10%, 15%?
- Roof restrictions – actual cash value 15 years

## Building valuation

- Insurance to value – replacement cost
- Supply chain issues & labor/goods shortages
- Co-insurance penalties & mandated values

## Limited carrier capacity

- More carriers needed to insure full values
- Non-renewals
- Citizens? Market of last resort

# Treasure Coast Market Overview

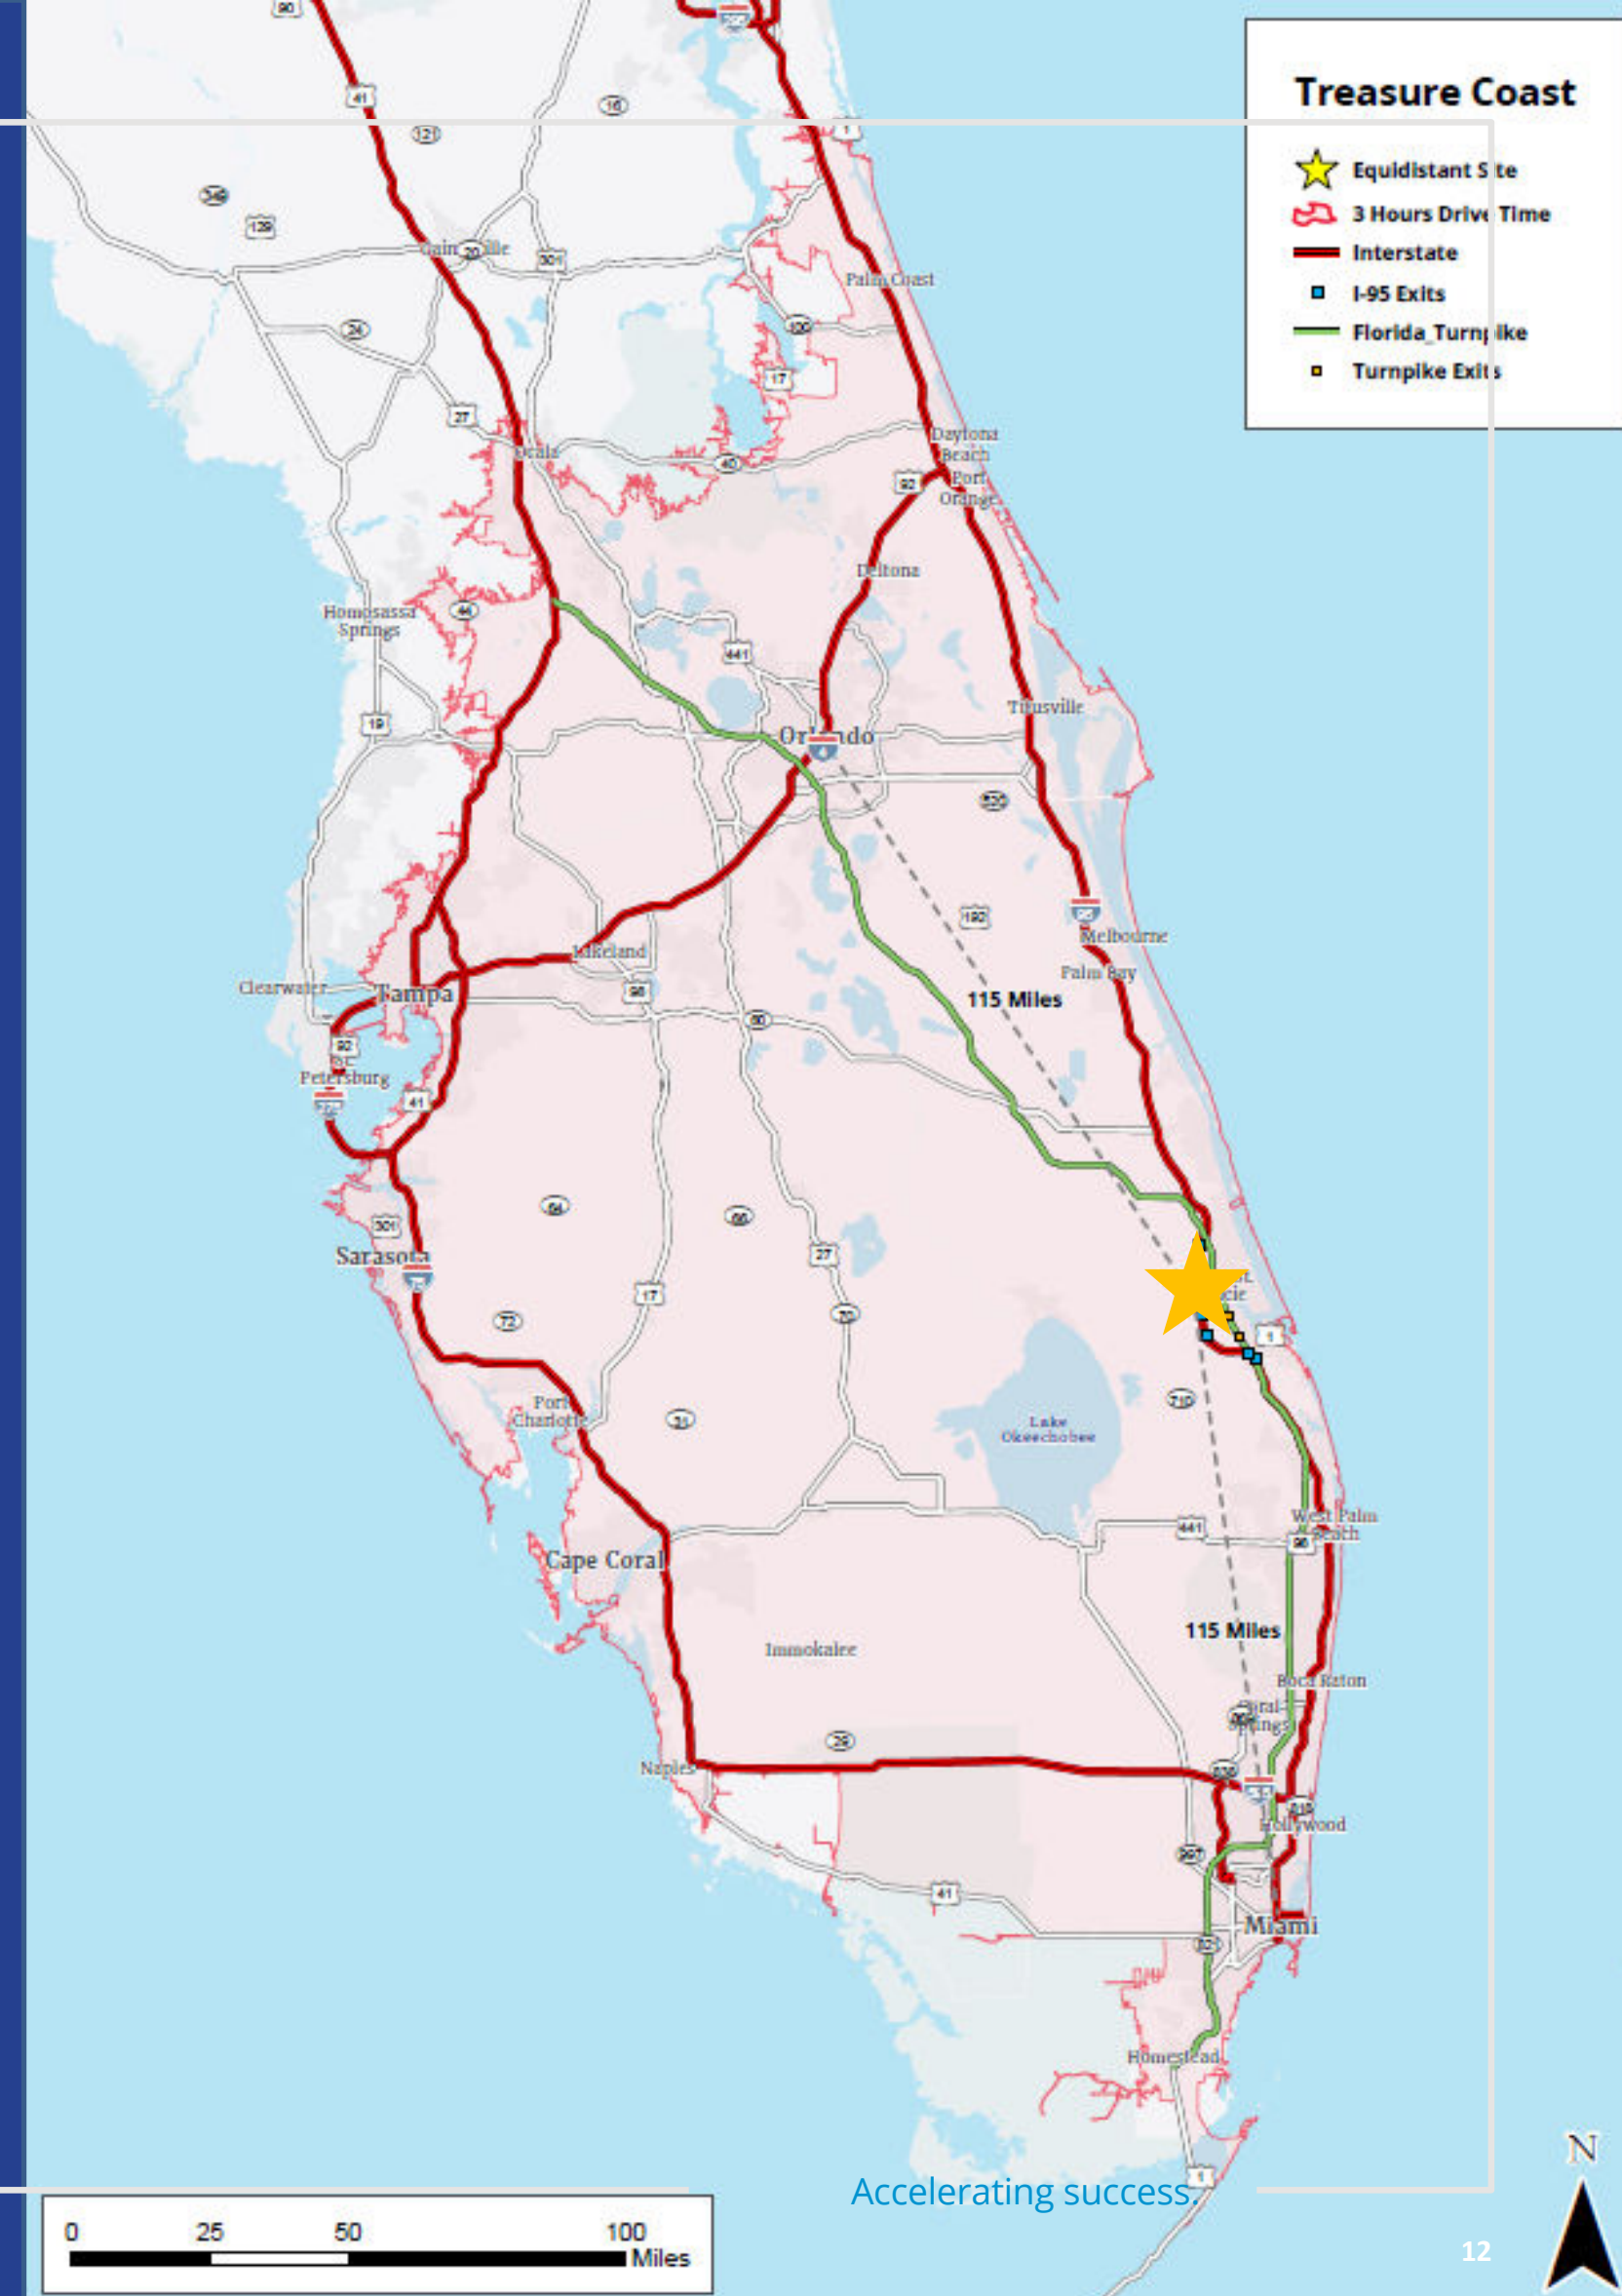

Accelerating success.

# Treasure Coast

## FUN FACTS

- Reach 70% of the state within a 3-hour drive time
- Equidistant to Orlando and Miami (115 miles)
- Access to (8) I-95 exits & (3) Florida Turnpike exits
- Top high school graduation rate in three-county region at 98%; 34 career and technical education programs
- Recognized as the safest region by population in the state

# Office Trends

## 2023 Year-End Market Comparison

Market Indicators (Class A/B/C)	Martin County	St. Lucie County	South Florida	South Florida Class A
Inventory	2.7 Million SF	4.8 Million SF	226 Million SF	77.2 Million SF
Under Construction	24K SF	28K SF	6.2 Million SF	5.1 Million SF

Vacancy Rate	4.2% Remained Unchanged YOY	5.6% Increase 110 BPS YOY	9.5% Increase 10 BPS YOY	13.9% Decrease 30 BPS YOY
Asking Rates				
Full-Service Rents	\$14.55	\$18.10	\$44.92	\$51.54
5-Year Growth	-12.4%	+18.1%	+37.5%	+30.4%

Source: CoStar, Colliers, Q4 2023

## Market Highlights & Outlook

### Martin County

- Due to uncertainty in macroeconomic factors, the Martin County office market remained stable in 2023, with a vacancy rate that remained unchanged year-over-year, and rental rates that decreased to \$14.55 per square foot FS, a decrease of 12.4 percent over the past 5 years. With limited new construction and office tenants expanding north, the market is expected to remain stable going into 2024.

### St. Lucie County

- St. Lucie County is experiencing significant growth in rents, reaching \$18.10 per square foot FS in the fourth quarter of 2023, an 18.1 percent increase over the last five years. At the same time, vacancy rates increased to 5.6 percent, up 110-basis points year-over-year. With limited new construction on the horizon, vacancy rates are expected to stabilize going into 2024.

### South Florida

- With continued population growth, the South Florida market continues to expand with rental rates reaching a record high of \$44.92 per square foot FS based on heightened tenant demand. Despite the influx of new construction, the vacancy rate was stable at 9.5 percent, a marginal 10-basis points increase year-over-year. Healthy market fundamentals are expected to continue going into 2024.

### South Florida (Class A)

- The South Florida Class A office market was strong amid a substantial amount of new construction over the last five years. The vacancy rate ended the fourth quarter of 2023 at 13.9 percent, a year-over-year decrease of 30-basis points, and posted positive 536,000 square feet of net absorption for the year. The 5.1 million square feet under construction is expected to be absorbed quickly upon completion as the flight-to-quality trend persists.

Accelerating success.

# Office Trends

## Moving Forward in 2024

### Bifurcation/ Flight to Quality

Modern, high quality, well-located assets will continue to attract tenants and increase rents, while Class B and C assets will see a tighter pool of interested tenants.

### Renovations & Redevelopment

The pandemic has prompted an effort to redevelop obsolete office buildings and renovate CBDs that will serve the sector well over time.

### Office Taking Shorter Lease Terms

As WFH becomes ingrained, companies renewing leases are taking out shorter leases and 10-20 percent less space than they did pre-pandemic. Improving building amenities will be a key to luring employees to the office.

### Medical Office

Medical office has been maturing into an attractive and stable asset type. Demand is strong due to the aging population and growing number of insured people needing care.

### New-to-Market Tenants/Talent

An influx of new-to-market office tenants is expected to continue as companies and employees relocate to FL for a better quality of life and are lured by the new, state of the art facilities.

### Investment Activity Slows

Office market recovery will be hampered by weak capital market liquidity as many investors and lenders are reluctant to increase exposure to the sector.

# Retail Trends

## 2023 Year-End Market Comparison

Market Indicators	Martin County	St. Lucie County	South Florida	South Florida Class A
Inventory	9.8 Million SF	10.5 Million SF	270 Million SF	43.1 Million SF
Under Construction	0 SF	197K SF	2.4 Million SF	1.0 Million SF
Net Absorption (2023)	+130K SF	-7.6K SF	+1.8M SF	+549K SF
Vacancy Rate	4.7% Decrease 90 BPS YOY	4.3% Increase 100 BPS YOY	3.4% Remained Unchanged YOY	2.8% Increase 20 BPS YOY
Asking Rates				
NNN Rents	\$20.41	\$20.17	\$34.10	\$36.24
5-Year Growth	+10.8%	+27.3%	+34.1%	+31.8%

Source: Costar, Colliers, Q4 2023

## Market Highlights & Outlook

### Martin County

- Martin County retail market fundamentals displayed positive key indicators across all key metrics in 2023. Rental rates climbed up to \$20.41 per square foot NNN, a 10.8 percent increase over the last five years. Similarly, the vacancy rate decreased 90-basis points year-over-year, to 4.7 percent. With population growth shifting north and healthy tenant demand following, it's expected that retail vacancy rates will continue to compress.

### St. Lucie County

- The St. Lucie County retail market continued to show signs of improvement in 2023. Retail rents grew to \$20.17 per square foot NNN in the fourth quarter, a 27.3 percent increase over the last five years. At the same time, the vacancy rate reached 4.3 percent, a 100-basis point increase year-over-year, due to the delivery of new construction. Market fundamentals are expected to remain strong going into 2024.

### South Florida

- The South Florida retail market finished 2023 strong. Net absorption reached positive 1.8 million square feet, as rental rates climbed to an all time high of \$34.10 per square foot NNN. Furthermore, the vacancy rate remained unchanged year-over-year, at 3.4 percent. The 2.4 million square feet under construction will create more availability for ongoing demand.

### South Florida (Class A)

- The Class A retail market in South Florida remained stable in 2023. Vacancy rates ended 2023 at 2.8 percent, a 20-basis point increase year-over-year. However, net absorption reached positive 549,000 square feet for the year. The market is expected to strengthen in 2024, due to continued population growth and the uptick in new-to-market tenants, looking to establish a flagship in South Florida.

Accelerating success.

## Retail Trends

# Moving Forward in 2024

### Investors Favor Retail

Retail has strengthened in terms of both performance and investor preference when only a few years ago it was the most troubled asset class.

### Consumer Resilience

Throughout 2023, consumer spending has proven to be far more resilient than most economists have expected, despite still-elevated inflation.

### Urban/Suburban Retail Paradigm

CBD retail that had previously been dependent upon daytime traffic generated by office workers has been affected by the remote work trend.

### Class A - Mall Bifurcation

Though class A and trophy malls are reporting some of the highest occupancy rates of the past decade, the challenges of declining class B and C assets remain.

### The Demand Equation

Coresight reported an estimated 5,200 new store openings versus 3,200 closures in 2023. By mid-year 2023, these factors had translated into dozens of U.S. retail markets reporting historically low vacancy/availability rates.

### Bankruptcies on the Rise

2023 has seen some of the largest chain store failures in recent years, including some large liquidations. The largest bankruptcy of 2023 was the collapse of Bed Bath & Beyond— which resulted in 896 storefronts being returned to the market.

# Multifamily Trends

## 2023 Year-End Market Comparison

Overall Multifamily Market Indicators	Port St. Lucie-Fort Pierce	South Florida
Inventory (Units)	22,744*	657,280
Occupancy	92.6%	94.6%
<b>Rent</b>		
Per Square Foot	\$1.83	\$2.49
5-Year Rent Growth	+54%	+52%

Source: Costar, MPF, Colliers, Q4 2023  
 \*Sample of tracked inventory

### Market Highlights & Outlook

#### Port St. Lucie MSA

- Just like South Florida, the Port St. Lucie–Fort Pierce MSA has felt the effects of rapid population growth with a strong occupancy rate and a rental rate that has soared 54 percent over the last five years to \$1.83 per square foot. Continued migration is expected to strengthen the multifamily market as the population growth continues to shift north.

#### South Florida

- South Florida has achieved record growth over the last 5 years with rental rates climbing 52 percent to \$2.49 per square foot. Investors and developers have eyed South Florida for opportunities, adding over 13,000 new units in 2023 with another 47,131 units under construction.

## Multifamily Trends

# Affordable Housing Income Levels

Affordable housing is generally defined as housing on which the occupant is paying no more than 30 percent of gross income for housing costs, including utilities.

Housing Type	AMI* Range	Household Income
Affordable	30-50% (Very Low)	\$25K-\$42K
	50-80% (Low)	\$42K-\$68K
	80-120% (Moderate)	\$68K-\$102K
Attainable	120-140%	\$102-119K
Market Rate	>140%	\$120K+

Source: Colliers, Florida Housing Income Limits, 2023

\*The Area Median Income (AMI) for a household of four (4) in Martin County is \$84,800. Each of the income thresholds uses a household size of four (4) members.

## Multifamily Trends

# Martin County Affordable Housing Challenges

25% of all renters in Martin County are low income (Household income is 60% of AMI or less) and cost burdened (Paying more than 40% of income for gross rent). This is the equivalent to 3,695 cost burdened renters.

Martin County   Housing Cost Burden	
Number of Renter Households	14,820
Low-Income (<=60% AMI), Cost Burdened (>40%) Renters	3,695
Low-Income/ Cost Burdened Renters as % of All Renters in the County	25%
<i>Source: Colliers, 2022 Shimberg Rental Market Study</i>	

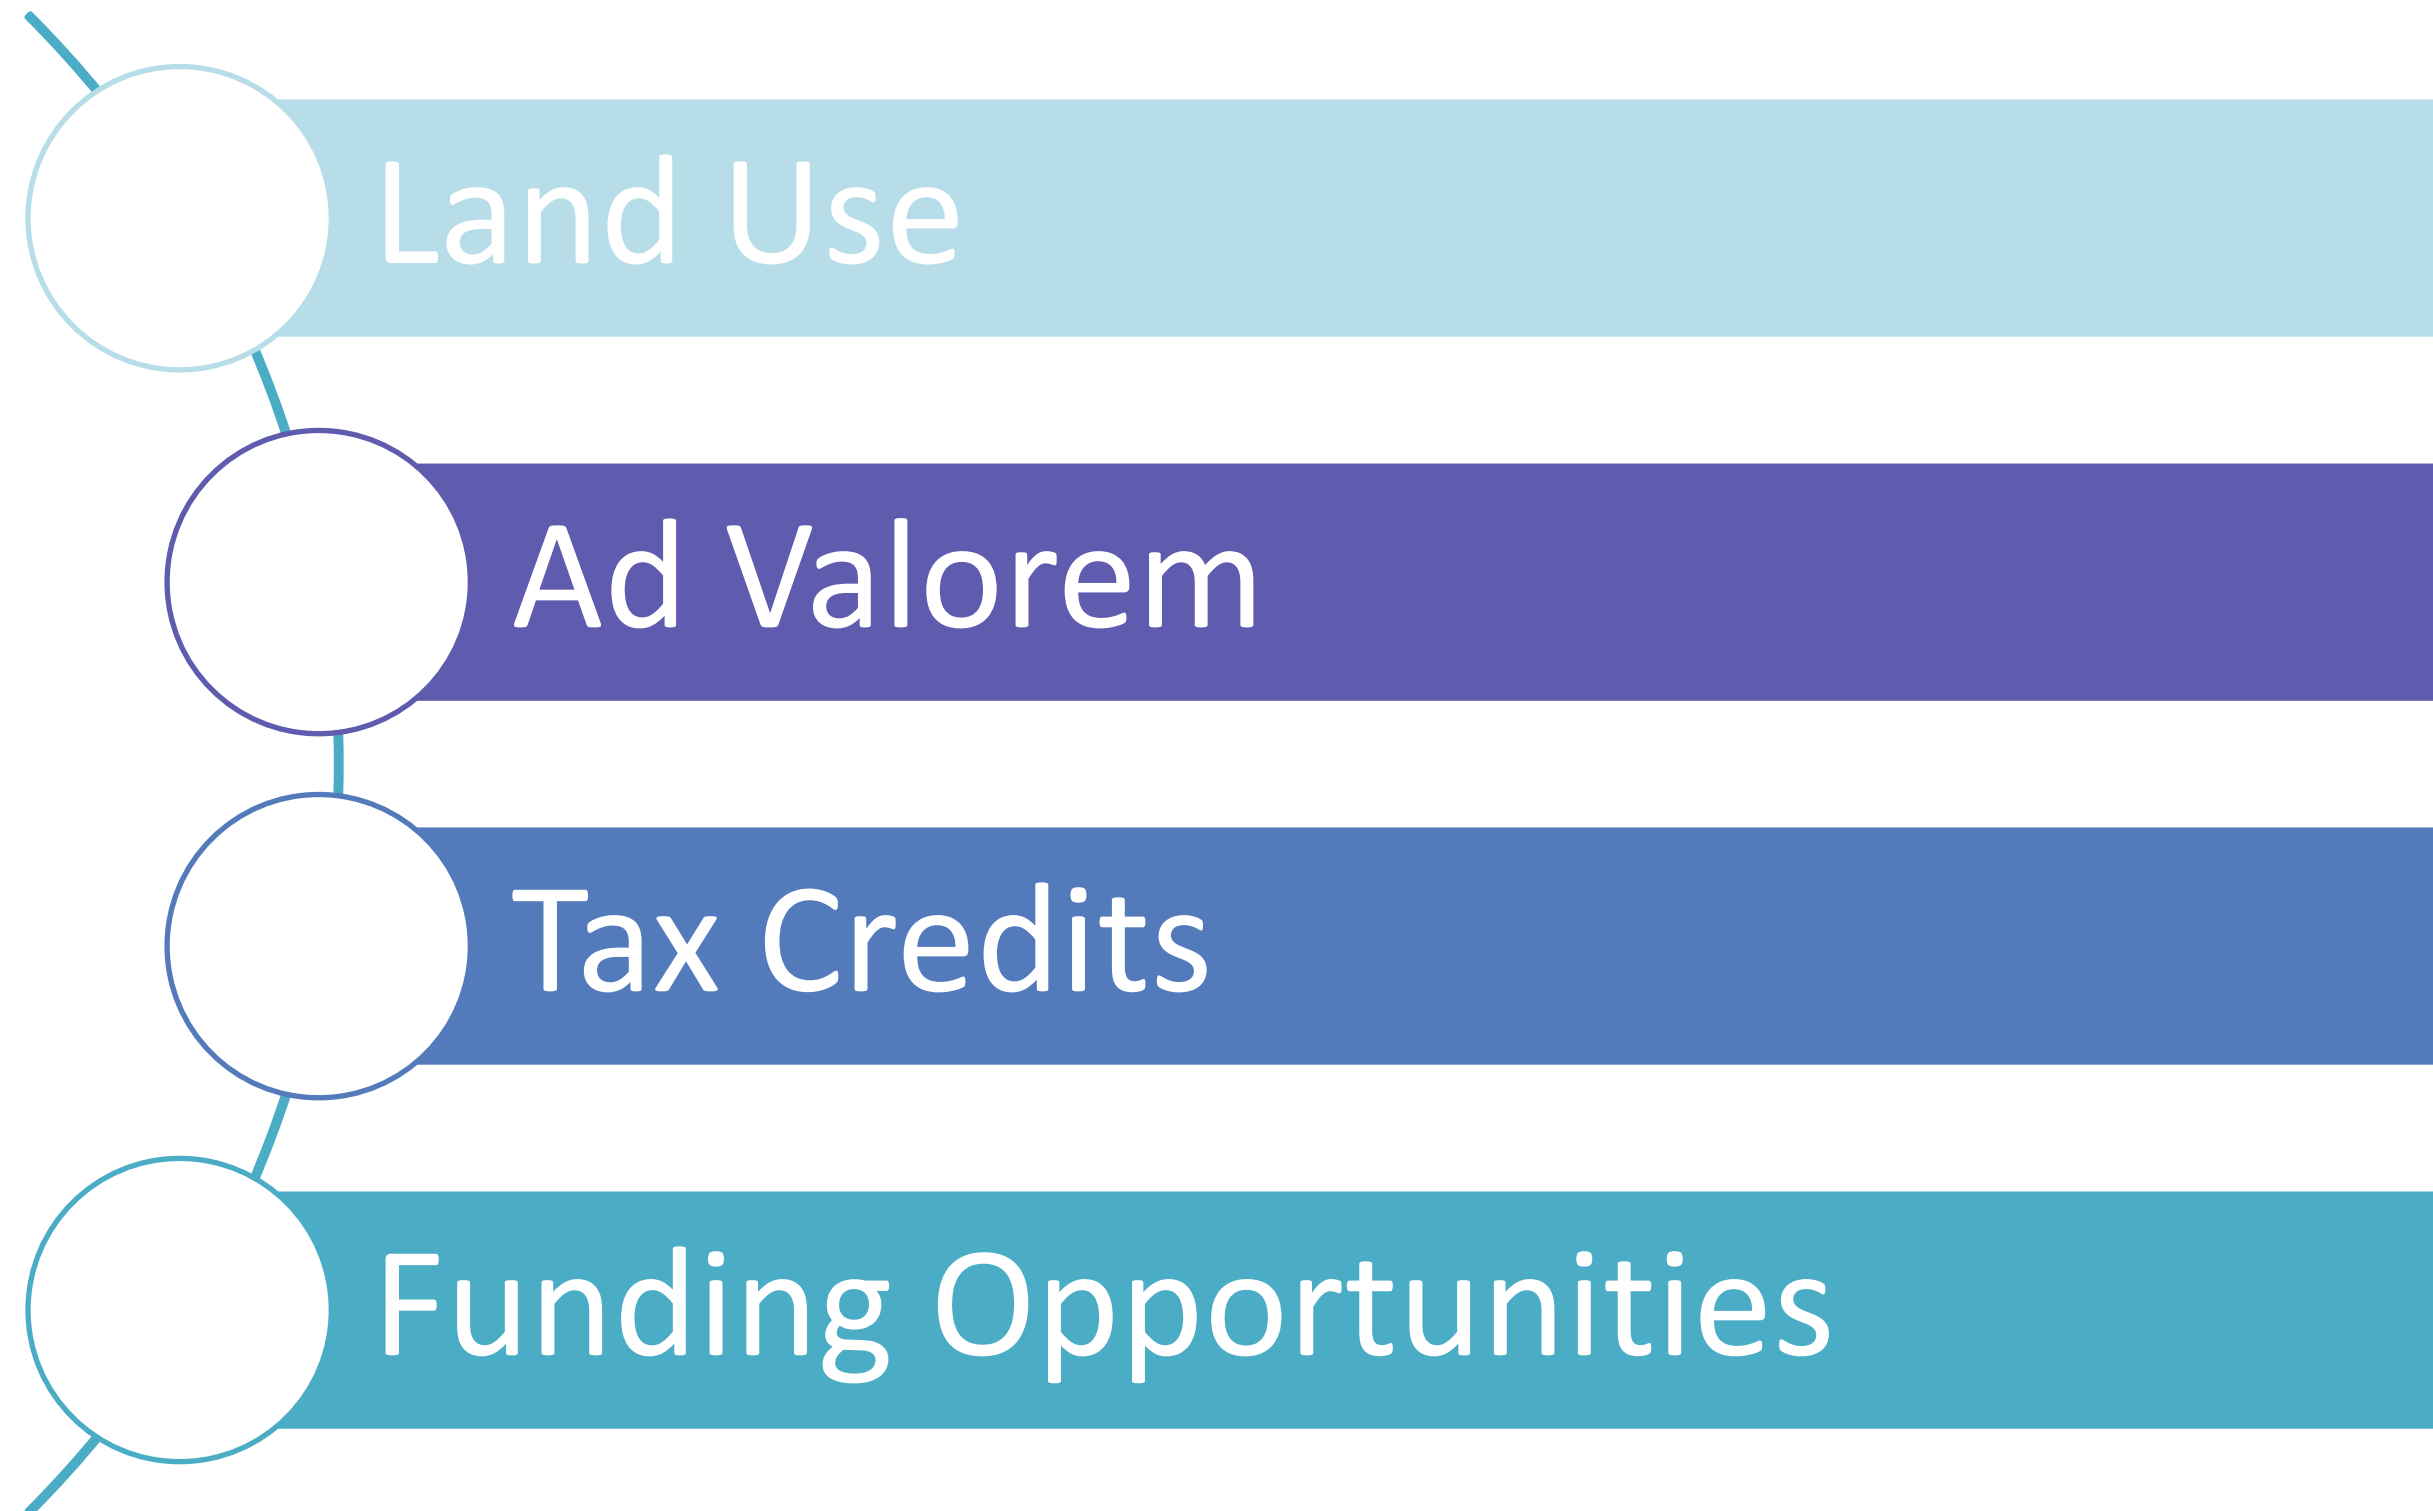

Factors fueling the housing affordability challenge:

- Limited, dwindling, supply of affordable housing options:
  - Florida added 600,000 rental units between 2012 and 2021 with rents above \$1,000.
  - But the state lost nearly 277,000 units renting for \$1,000 or less.
- Lack of affordable housing development to keep pace with population growth.
- Much of the cost burdened renter households are headed by someone age 55 or older.
- Strong real estate market with steadily rising property values.
- Population growth fueled by an influx of more affluent residents.
- Increasing cost of living, including expenses like utilities, healthcare, and transportation.

## Summary of Key Changes

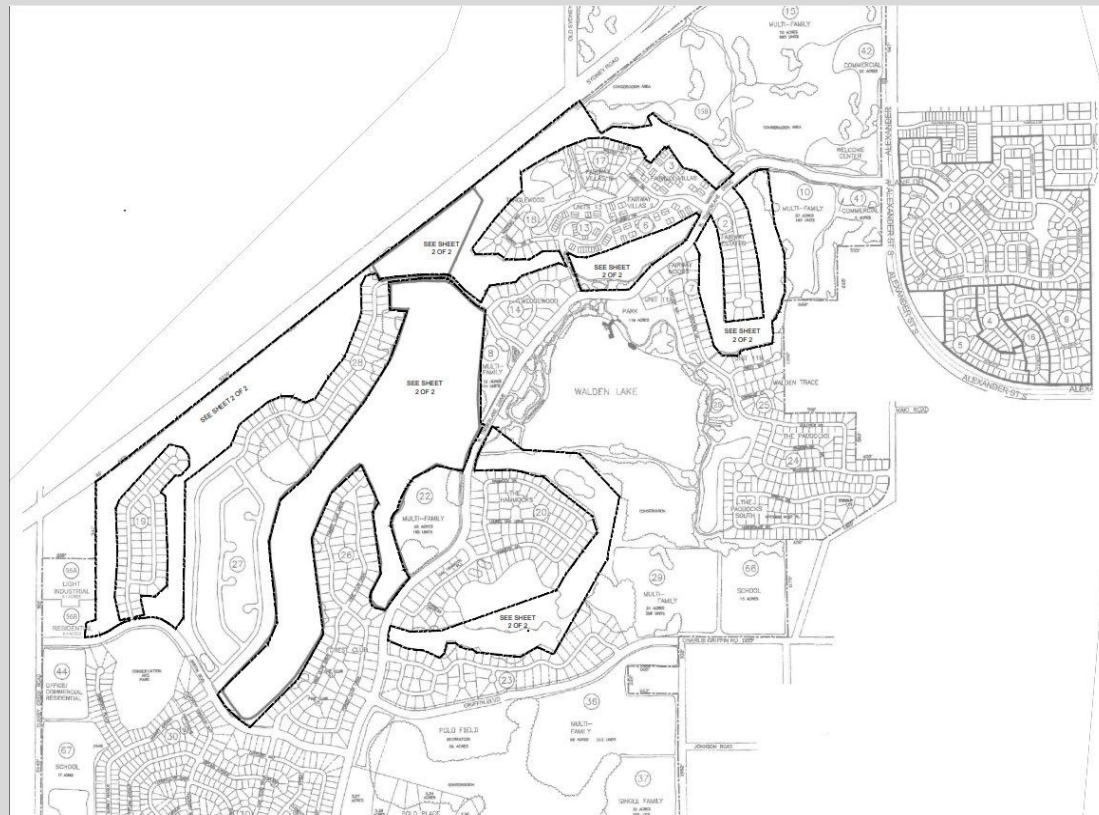

Senate Bill 102 – The Live Local Act, passed March 2023, effective July 2023

## Step 1:

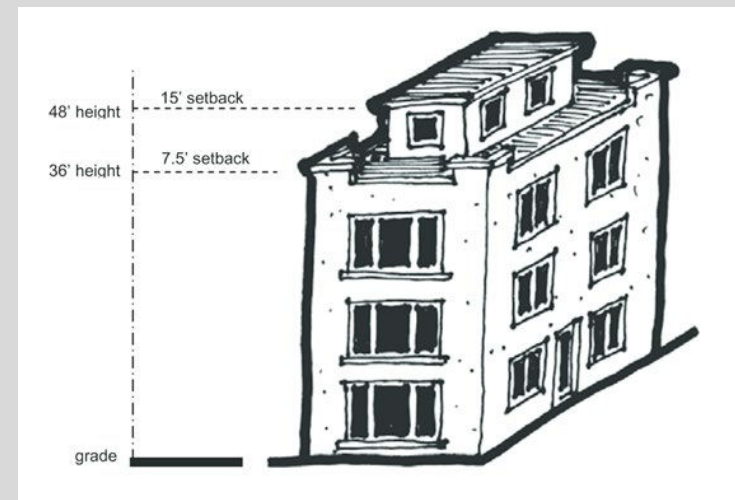

Is the area zoned for commercial, industrial, or mixed-use?

## Step 2:

Can the developer design a project to meet other land development code standards for multifamily projects in the multi-family zoning district permitting the greatest density in the jurisdiction?

This includes setbacks, parking, open space, buffers, etc.

## Step 3:

Can the project meet all other applicable state and local laws and regulations?

## Step 4:

Is the Project affordable?

- At least 40% of multifamily residential units are affordable for at least 30 years;
- Affordable = monthly rents, including taxes, insurance and utilities

Extremely-low-income (< 30% AMI)

Very-low-income (50% AMI)

Low-income (80% AMI)

Moderate-income (120% AMI)

# Live Local Act

(Clarifications - SB 328)

## ZONING/DENSITY

- Industrial Land remains/Lands near Airport removed
- Preemption for floor area ratio ("FAR")

## LOCAL LAWS

- Preemptively enacts new local laws for "certain projects" which contain affordable housing
- Protect SFR -adjacent to (2 or more sides) developments with 25 contiguous SFR

## REAL ESTATE TAX EXEMPTION

- Developers exempt from paying real estate taxes depending on the affordable housing that is set-aside in the project
- "Missing Middle" exemption must include % share of common areas/land attributable to unit

## TRANSIT RELATED PARKING

- Any Live Local project in TOD must be mixed-use and local gov't must eliminate parking requirements
- Also includes mandatory 20% parking reduction for any project within 1/2 mile of major transit hub

# Industrial Trends

# Industrial Trends

## Cost of Construction – Moving Into Right Direction in 2024

Price PSF	Prices Now		Prices High Point
<b>Steel</b>	\$12.00	↓	\$18.00
<b>Concrete Tilt Wall</b>	\$16.00	↓	\$22.00
<b>Concrete Floor</b>	\$9.00 - \$10.00	↓	\$12.00

### Fill Quarry or Street Fill

**Miami easier to find street or quarry fill**

- \$24/CYD Quarry Fill

**Broward tough to find street fill – no quarry, so trucking from Palm Beach or Miami**

- \$0.50/Mile (now) VS \$0.30/Mile (2019)

**Palm Beach has quarries and street fill**

- \$25-\$26 CU/YD – Quarry Fill
- \$8 /CYD – Street Fill

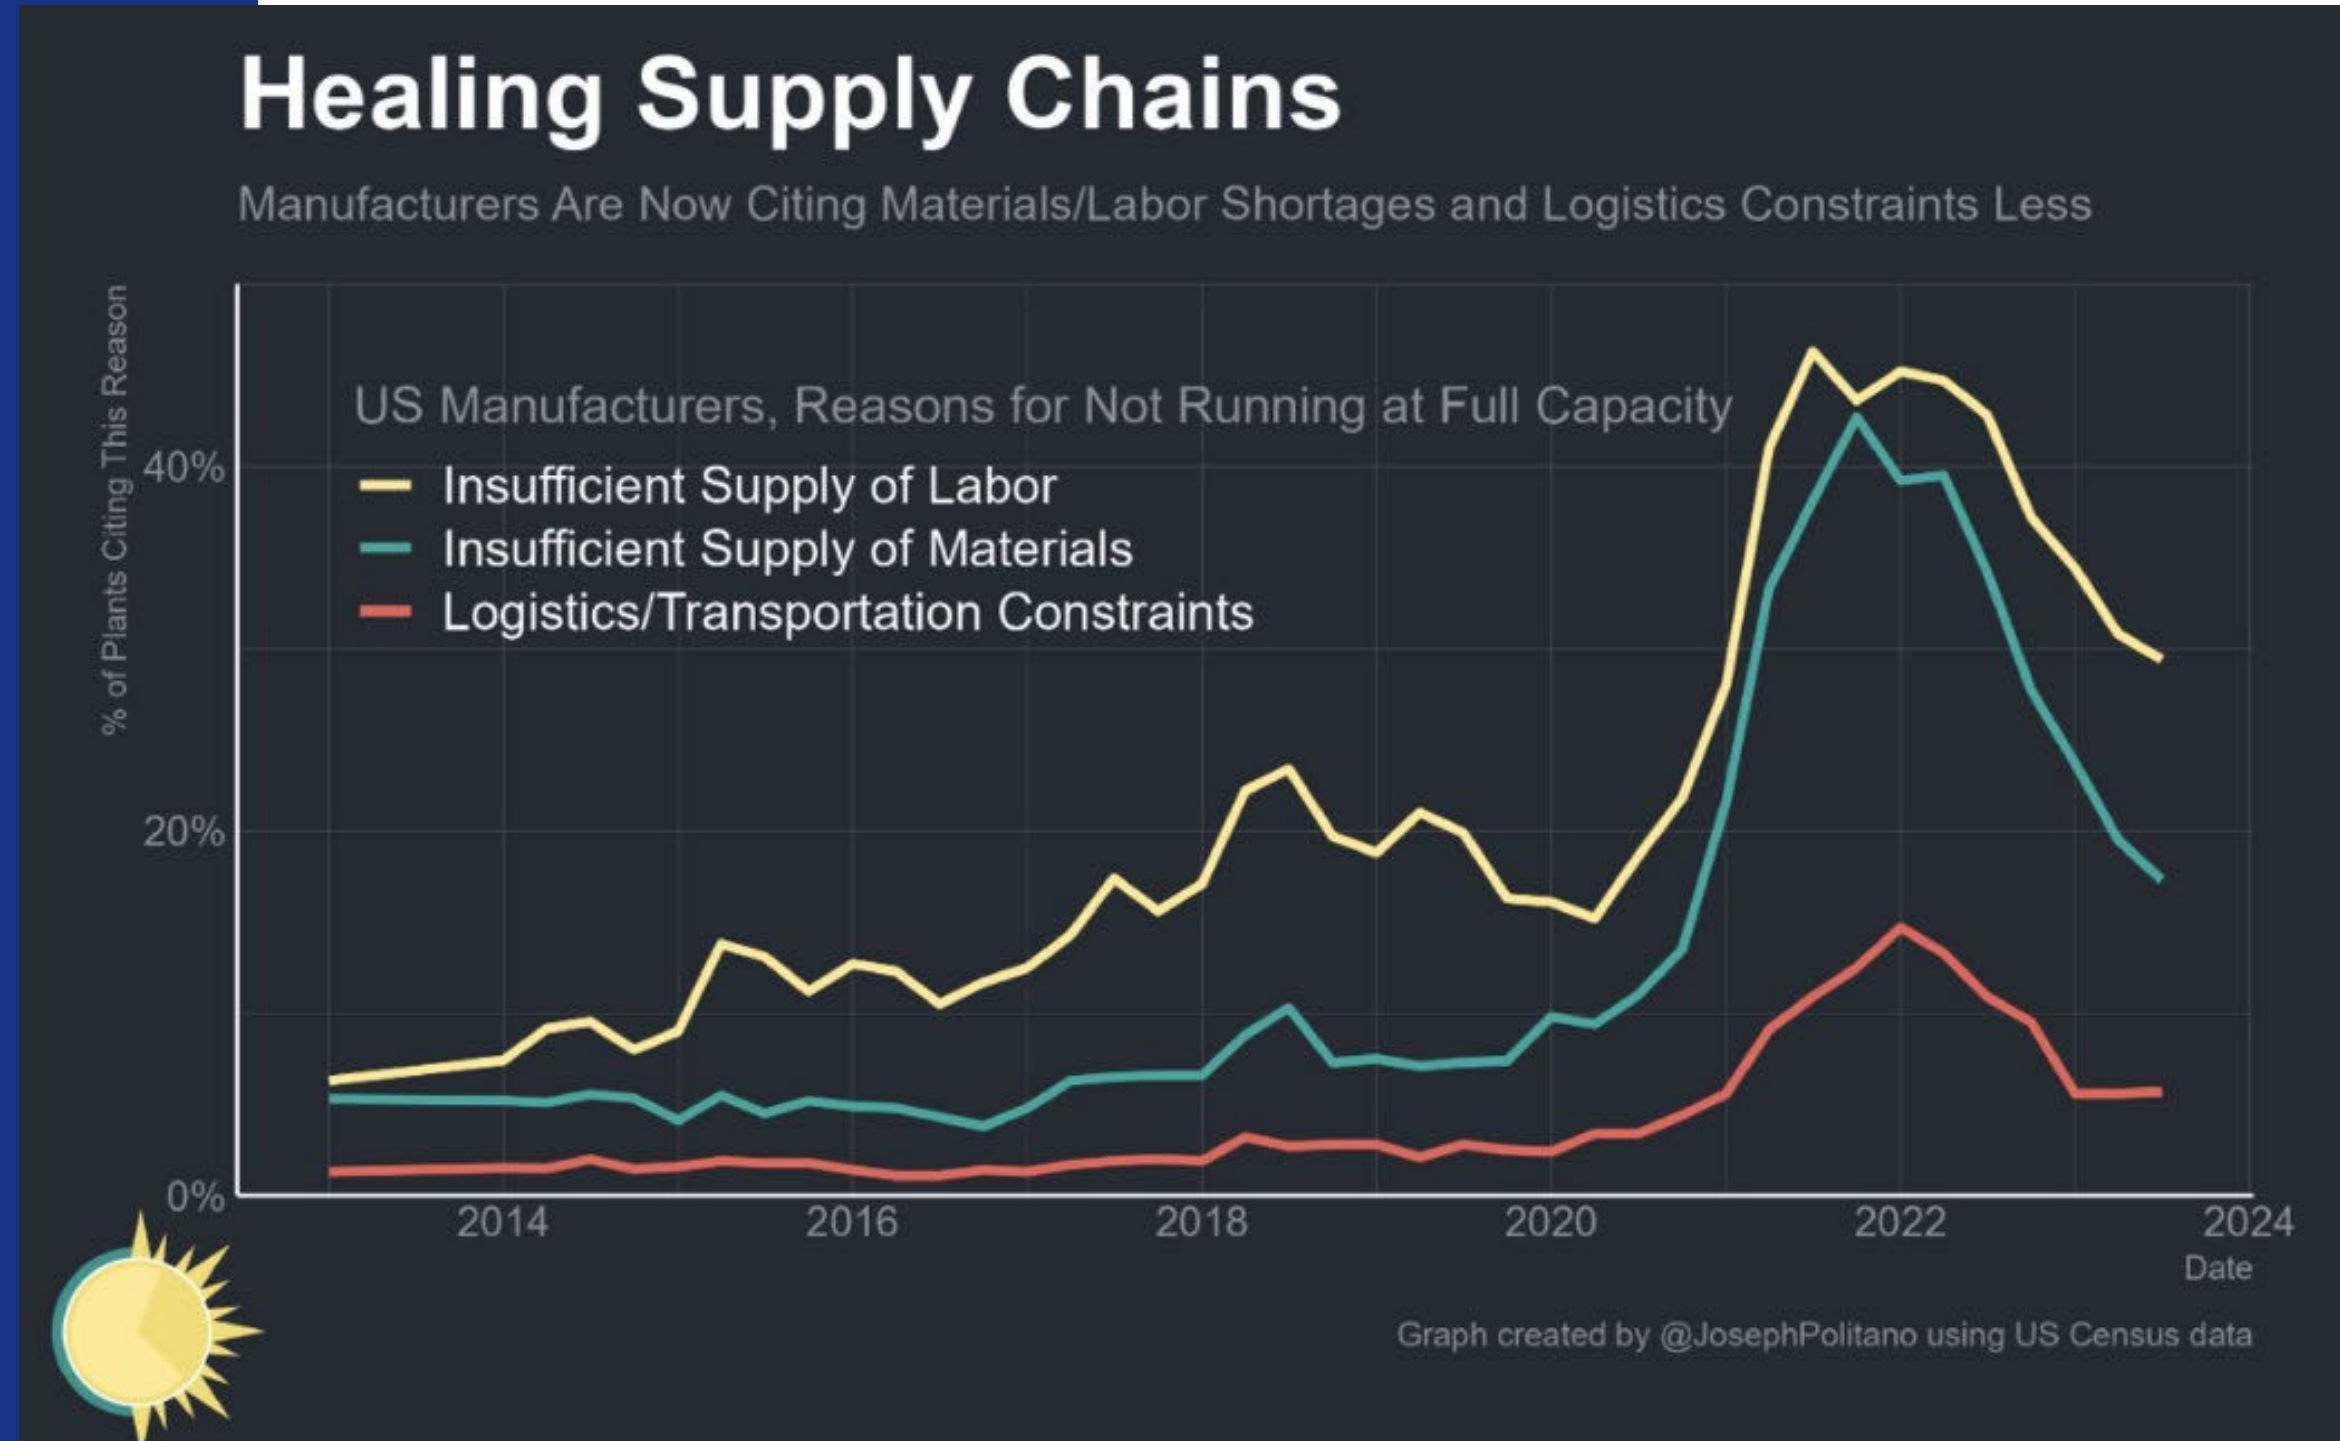

- Switch gear/transformers 5–6-month lead time for large panels
- 200-400 AMP Readily available
- HVAC normal
- Roofing normal

# Industrial Trends

- All aspects of this index are moderating as supply chain returns to a sense of normal
- Labor continues to be the biggest challenge for supply chain service providers
- Transportation constraints have eased and are now within normal tolerances

# Industrial Trends

## Customer Focus Areas

### Inventory Strategy, Robotics/Automation, Geo-political Impacts & Labor Dynamics

- As the markets continue to settle into a pre-pandemic “normalcy”, **customers are heavily focused on inventory strategy**. Evaluating impacts of rent in high markets – relocations to lower cost markets.
- Customers **look for creative solutions within their existing footprints** and ensure maximum utilization of existing assets – focus on higher cube usage.

Source: NFI

- Disruptions to shipping lanes, especially in the Red Sea, driven by geo-political unrest is driving re-evaluation of shipping routes, adding time and cost to shipments, and **resulting in a reshuffling of ocean freight**.
- **Uncertainty with regards to labor dynamics**. Despite the low unemployment rates that have been driving wage growth, there are indications that things may be shifting.

# Treasure Coast Economic Development

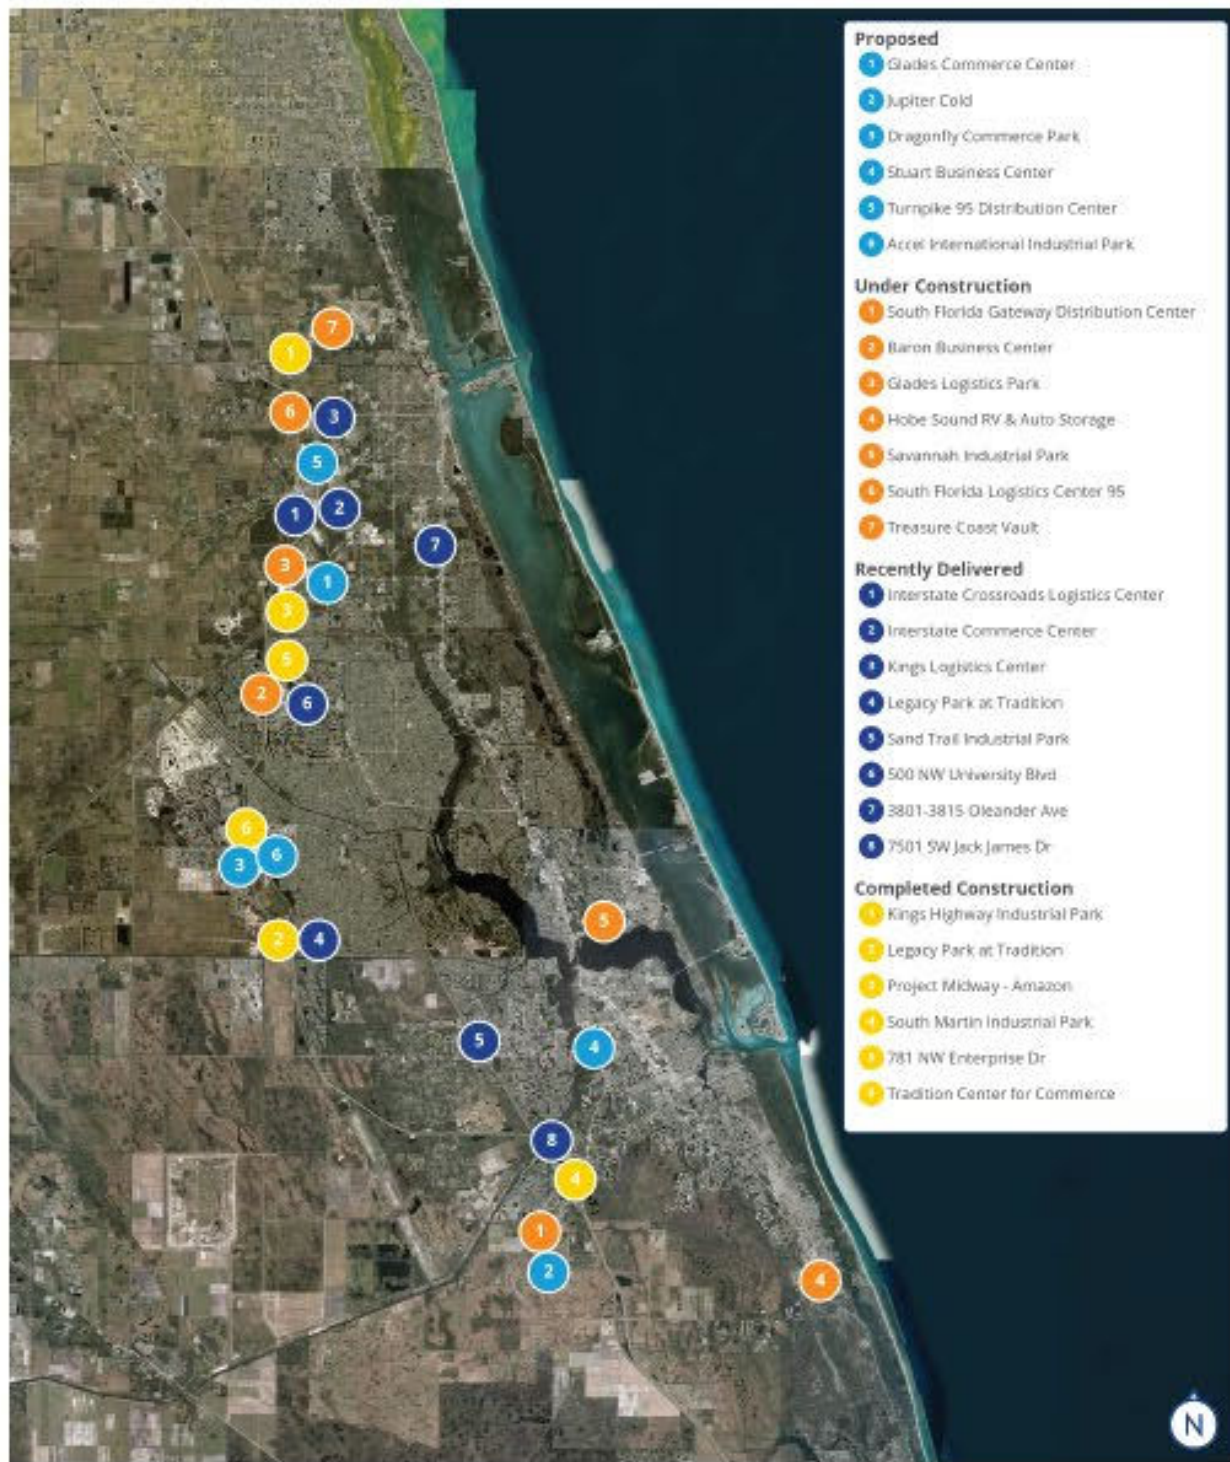

Accelerating success.

# Summary & Outlook

Accelerating success.

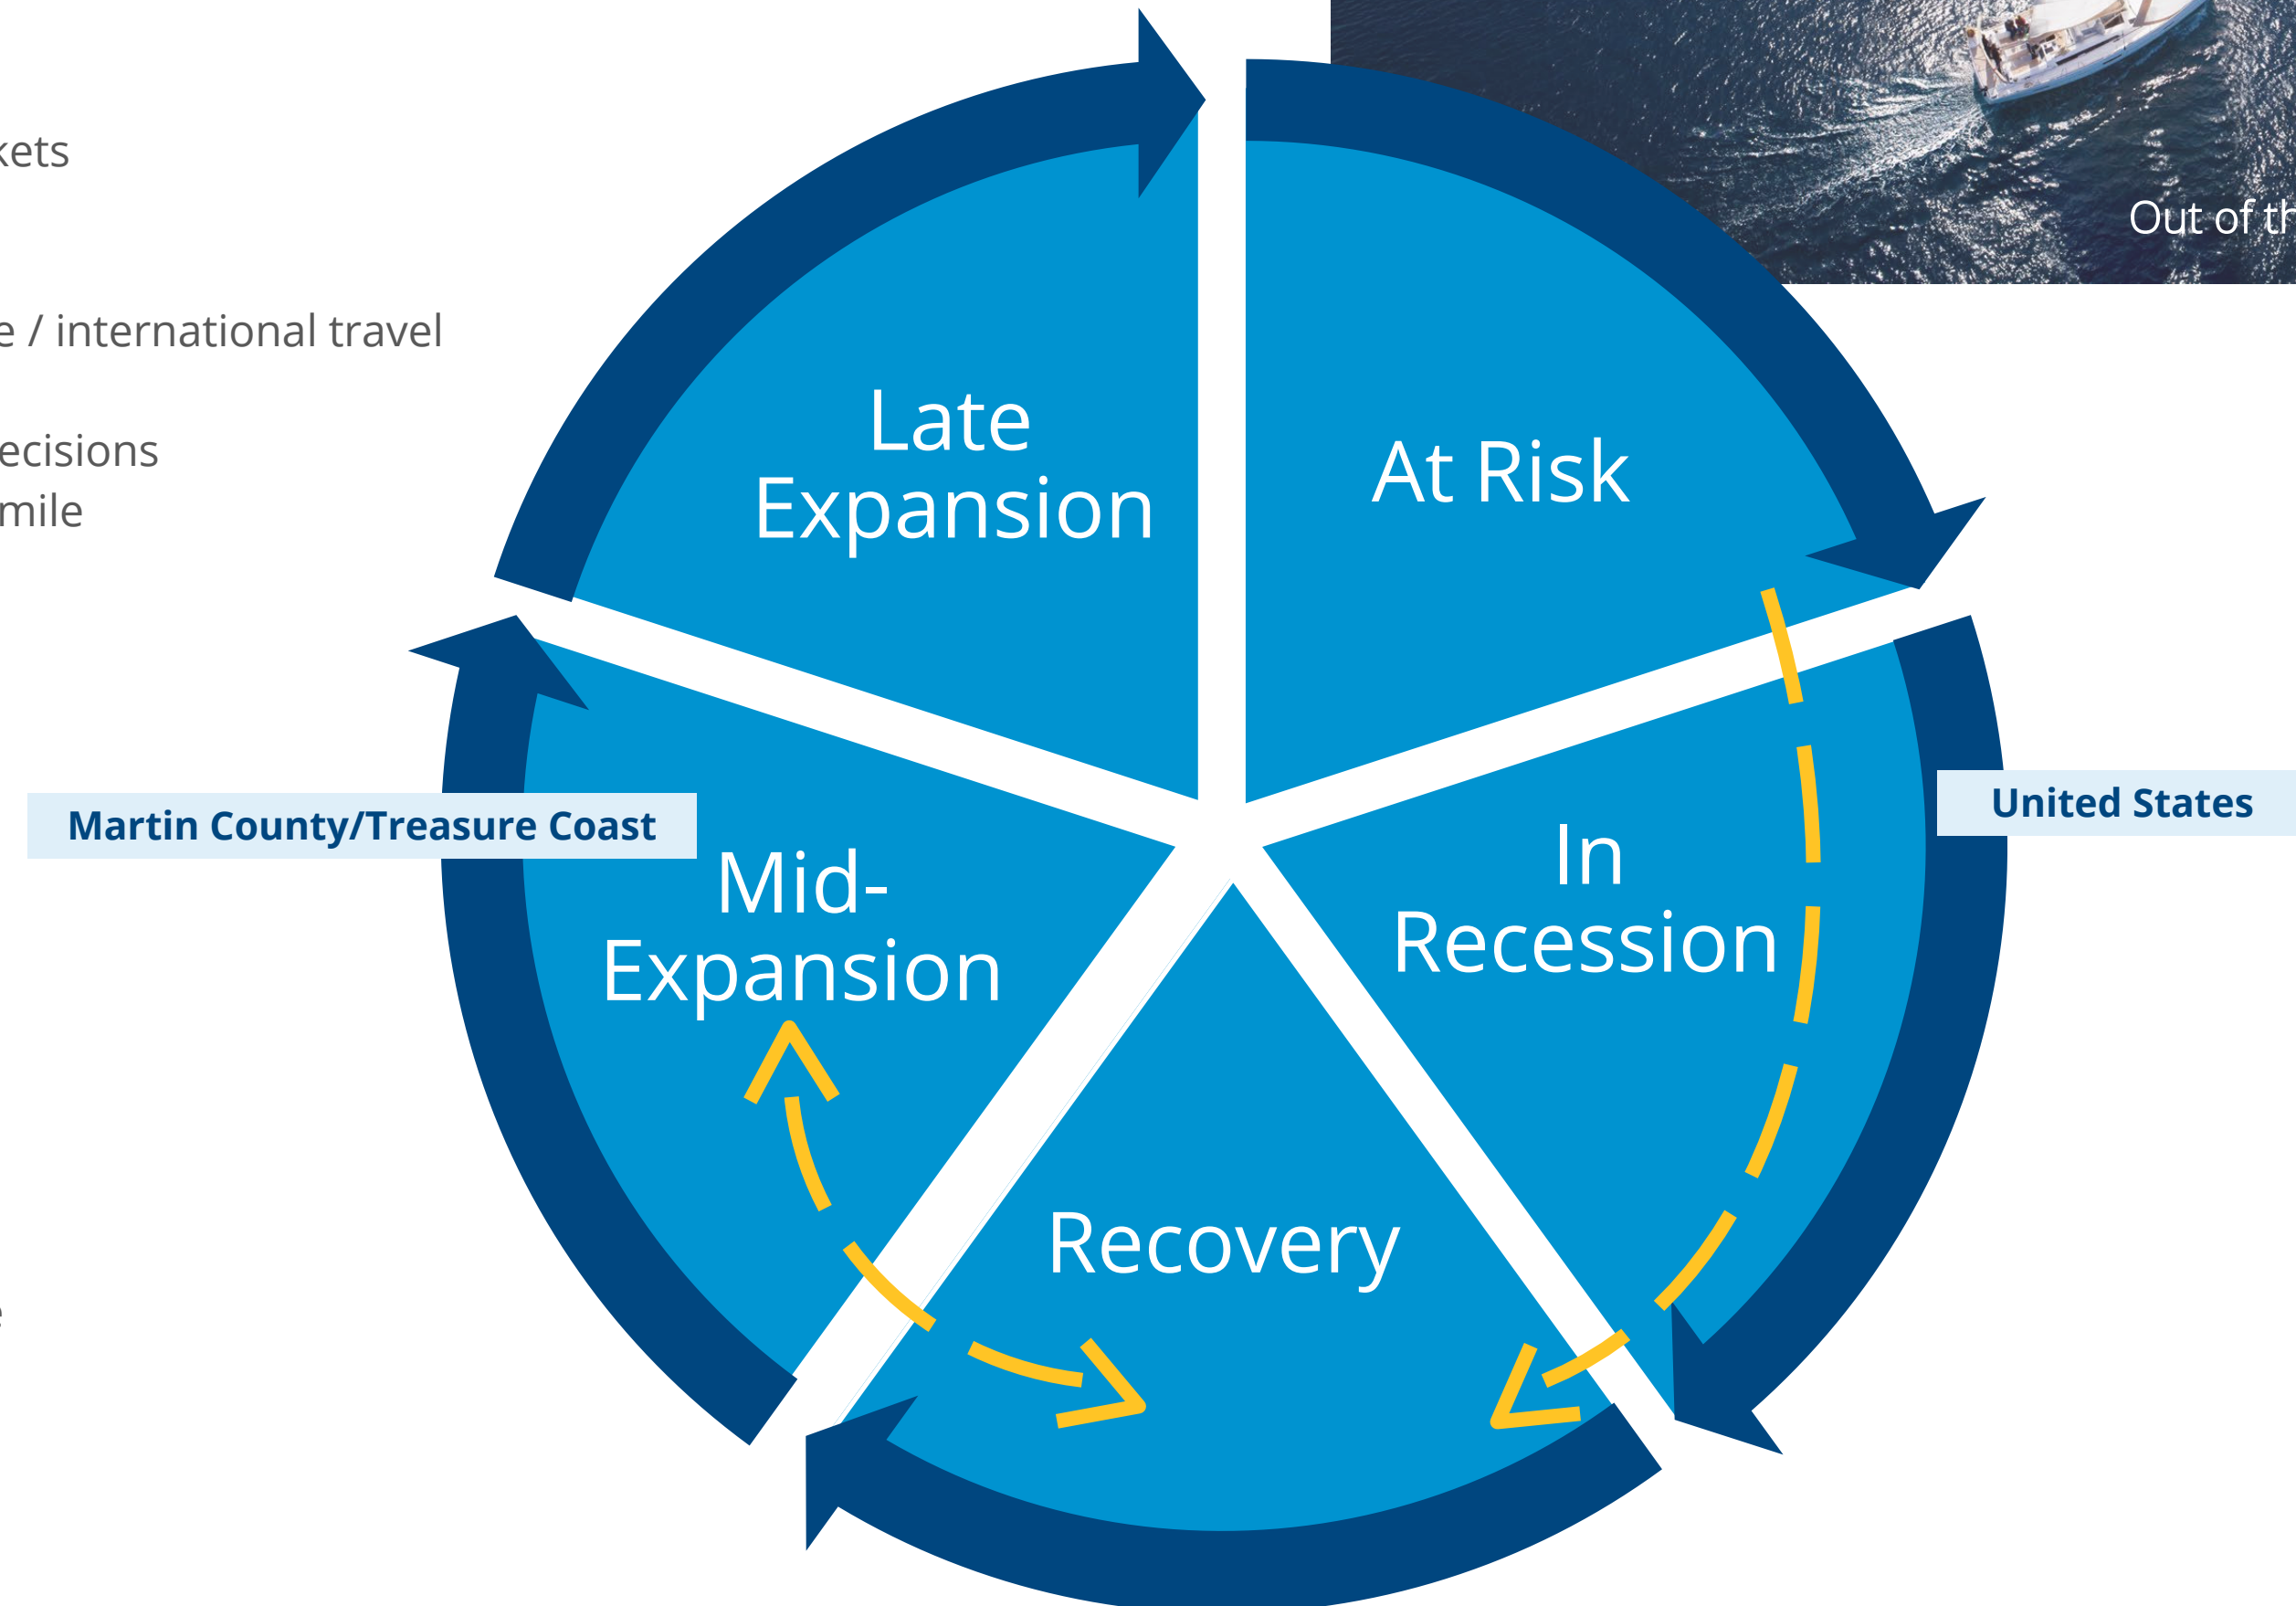

# Navigating Uncertainty

## Tailwinds

- Northern shift from South Florida markets
- Domestic migration diversifying
- International migration returning
- Hospitality recovering – return of cruise / international travel
- Retail transformation
- Talent migration facilitating business decisions
- Rapid expansion of e-commerce – last mile
- De-Urbanization/suburban “flight”?

## Headwinds/Risks

- Interest Rates
- Inflation
- Construction Prices
- Affordable Housing/Labor Shortage
- Property Insurance
- Education/transportation infrastructure
- Supply Chain Constraints
- Global Insecurity/political (VOLATILITY)

Accelerating success.

## What's Next

# Where are we going in 2024?

**Resiliency - Net Zero**

**Values Based Policies**

**Mobility and Connectivity**

**Innovative Solutions**

**Rebuild Tourism**

**Major Civic Investments**

**Infrastructure and Public Spaces**

**Flight to Quality & Flexible Office Space**

## 2024 Emerging Trends

- Economy is headed for a “soft-landing”
- Higher For Longer Interest Rates
- A Return to 2% Inflation?
- Labor Market to Soften
- Consumer Spending to Wane
- Higher Cost of Capital
- Insurability

## Artificial Intelligence

1. How AI is developing generally
  - Algorithm development
  - Federal Regulation
  - Fair Use policy
2. How AI is impacting communities
  - Local Applications
  - Govtech investment
  - Robotics
3. How AI is impacting Treasure Coast
  - Rapid Growth
  - Local Culture/Infrastructure
